

Work out the value of each shape:

$$\text{Blue Rectangle} + \text{Blue Rectangle} + \text{Yellow Triangle} = 27$$

$$\text{Yellow Triangle} + \text{Yellow Triangle} + \text{Purple Circle} = 26$$

$$\text{Blue Rectangle} + \text{Purple Circle} + \text{Blue Rectangle} = 32$$

Work out the value of each shape:

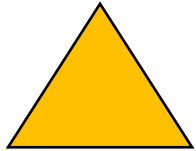

$$\text{Blue Rectangle} + \text{Blue Rectangle} + \text{Yellow Triangle} = 27$$

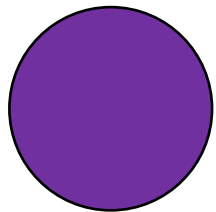

$$\text{Yellow Triangle} + \text{Yellow Triangle} + \text{Purple Circle} = 26$$

$$\text{Blue Rectangle} + \text{Purple Circle} + \text{Blue Rectangle} = 32$$

Work out the value of each shape:

 = 10

 = 7

 = 12

Work out the value of each shape:

 = 10

 = 7

 = 12

Work out the value of each shape:

$$\text{Blue Rectangle} + \text{Blue Rectangle} + \text{Yellow Triangle} = 21$$

$$\text{Yellow Triangle} + \text{Yellow Triangle} + \text{Purple Circle} = 20$$

$$\text{Blue Rectangle} + \text{Purple Circle} + \text{Blue Rectangle} = 26$$

Work out the value of each shape:

$$\text{Blue Rectangle} + \text{Blue Rectangle} + \text{Yellow Triangle} = 21$$

$$\text{Yellow Triangle} + \text{Yellow Triangle} + \text{Purple Circle} = 20$$

$$\text{Blue Rectangle} + \text{Purple Circle} + \text{Blue Rectangle} = 26$$

Work out the value of each shape:

$= 8$

$= 5$

$= 10$

Work out the value of each shape:

$= 8$

$= 5$

$= 10$

Work out the value of each shape:

$$\square + \square - \triangle = 7$$

$$\triangle \times \triangle - \bigcirc = 117$$

$$\square + \bigcirc - \square = 4$$

Work out the value of each shape:

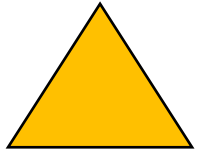

$$\square + \square - \triangle = 7$$

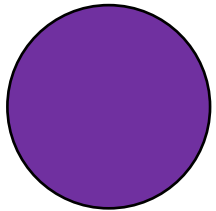

$$\triangle \times \triangle - \bigcirc = 117$$

$$\square + \bigcirc - \square = 4$$

Work out the value of each shape:

 = 9

 = 11

 = 4

Work out the value of each shape:

 = 9

 = 11

 = 4

Work out the value of each shape:

$$\square \times \square \div \triangle = 18$$

$$\triangle - \triangle + \bigcirc = 5$$

$$\square + \bigcirc + \square = 17$$

Work out the value of each shape:

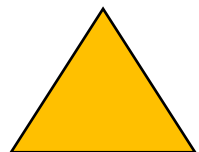

$$\square \times \square \div \triangle = 18$$

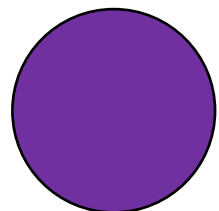

$$\triangle - \triangle + \bigcirc = 5$$

$$\square + \bigcirc + \square = 17$$

Work out the value of each shape:

 = 6

 = 2

 = 5

Work out the value of each shape:

 = 6

 = 2

 = 5

Work out the value of each shape:

$$\square \times \square \div \triangle = 20$$

$$\triangle \times \triangle + \bigcirc = 33$$

$$\square - \bigcirc + \square = 12$$

Work out the value of each shape:

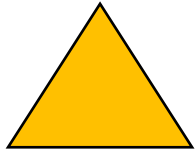

$$\square \times \square \div \triangle = 20$$

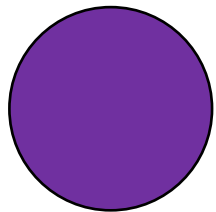

$$\triangle \times \triangle + \bigcirc = 33$$

$$\square - \bigcirc + \square = 12$$

Work out the value of each shape:

 = 10

 = 5

 = 8

Work out the value of each shape:

 = 10

 = 5

 = 8
